To the Members of the Commission and the Citizens of the County of San Diego:

The Comprehensive Annual Financial Report (CAFR) of the First 5 Commission of San Diego for the year ended June 30, 2015 is hereby submitted as mandated by applicable statutes. These statutes require First 5 San Diego to annually issue a report of its financial position and activity. A complete audit of the report by an independent firm of certified public accountants is also required. Responsibilities for both accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rest with the Commission's management. The information in this report is intended to present the reader with a comprehensive view of the Commission's financial position and the results of its operations for the fiscal year ending June 30, 2015, along with additional disclosures and financial information designed to enable the reader to gain an understanding of First 5 San Diego's financial activities.

Christy White Associates Certified Public Accountants have issued an unmodified ("clean") opinion on First 5 San Diego's financial statements for the year ended June 30, 2015. The independent auditor's report is located on page 1 of this CAFR.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE COMMISSION

First 5 San Diego was created by the San Diego County Board of Supervisors on December 8, 1998 following the passage of Proposition 10, through which the California voters made an unprecedented investment in early childhood development. During the last fifteen years, First 5 San Diego has made a lasting positive impact in San Diego County through its allocation of more \$563 million towards programs and operations that improve the well-being of young children and families in San Diego County.

LOCAL ECONOMY

San Diego County encompasses 4,206 square miles and extends nearly 160 miles from the Pacific Ocean to Imperial County to the East. It borders Mexico to the South and Los Angeles County and Riverside County to the North. There are 18 incorporated cities within the county. Total county population per the 2010 U.S. Census is 3,095,313, with children under 5 years old representing 6.5% of that total with 42,676 new births in 2013.

The County unemployment rate has dropped significantly from a high of 11.1% in July 2010 to 5.0% in June 2015. Total non-farm employment was 1,390,200 as of June 2015. The service industry, including information, professional and business services, education and health services, leisure and hospitality, and other services constitute the largest employment sector with 1,223,600 employed. The general view is that the County's economy will gradually improve reflecting the state and national economic improvement.

MAJOR ACCOMPLISHMENTS

- Recognizing the financial conditions facing the State, the County of San Diego, and San Diego County families with young children; the Commission allocated \$62,285,165 in contracts for services in the areas of health, education, family, and community programs.
- The Commission awarded contracts to 48 agencies throughout San Diego County for services in the areas of health, education, family, and community services.
- The Commission applied for, and was awarded, the Child Signature Program Grant from First 5 California.
- The Commission applied for, and was awarded, the Race to the Top Grant from the California Department of Education.
- The Commission was awarded a Certificate of Achievement for Excellence in Financial Reporting for the fiscal Year ended June 30, 2014 from the Government Finance Officers Association (GFOA).

FUTURE INITIATIVES

In FY 2013/2014 a new 5 year Strategic Plan was approved by the Commission covering the period 2015/2016 - 2019/2020. The primary components of the plan are:

- The accountability and framework designed to measure the success of the plan;
- Increase access, affordability and quality of center based early care and education;
- Increase access, affordability and utilization for healthcare services for children 0-5;
- Ensure parents utilize age appropriate health and development information in their parenting practices;
- Identify and treat children with special health and developmental needs as early as possible;
- Ensure that parents and caregivers are knowledgeable about available community resources and programs; and

OTHER FINANCIAL INFORMATION

Internal Control

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that has been established for this purpose. The internal control structure is designed to protect the Commission's assets from, loss, theft, or misuse and to ensure that adequate accounting data is compiled for the preparation of the financial statements in conformity with General Accepted Accounting Principles. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements.

Budgetary and Accounting Systems

The Commission is required to adopt an operating budget for the following year before the end of each fiscal year. Also, any increase in the adopted appropriations during the fiscal year must have Commission approval. Periodic financial updates are provided to the Commissioners at the regularly scheduled Commission meetings.

Financial Spending Plan

The Commission adopts a Financial Spending Plan (FSP) annually as part of the budget approval process. The FSP is being used to plan the reduction of the Sustainability Fund (Fund Balance) to zero over the next 5 years leaving an amount for a Management Reserve. Approximately \$13 million is being used from the Sustainability Fund annually over the next 5 years.

ACKNOWLEDGEMENTS

The Commission's Comprehensive Annual Financial Report was prepared through the combined effort of all First 5 San Diego's staff. Special recognition is due to the Fiscal Department staff for their effort to ensure timely and accurate reporting. I also thank the Commissioners for their continued support and interest in planning the financial operations of First 5 San Diego in a responsible and comprehensive manner.

Sincerely,

KIMBERLY GALLO
Executive Director

INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
First 5 Commission of San Diego
San Diego, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the First 5 Commission of San Diego (the Commission), a discretely presented component unit of the County of San Diego, California, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the First 5 Commission of San Diego's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of First 5 Commission of San Diego, as of June 30, 2015, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis on pages 5 through 9 and the budgetary comparison information on page 31 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the First 5 Commission of San Diego's basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The program financial statements on pages 34 through 39 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introduction and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 2, 2015 on our consideration of First 5 Commission of San Diego's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering First 5 Commission of San Diego's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

INTRODUCTION

Our discussion and analysis of the First 5 Commission of San Diego's (The Commission) financial performance provides an overview of the Commission's financial activities for the fiscal year that ended June 30, 2015. It should be read in conjunction with the Commission's financial statements.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, issued June 1999; GASB Statement No. 37, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments: Omnibus*, an amendment to GASB Statements No. 21 and No. 34, issued in June 2001 and; GASB Statement No. 38, *Certain Financial Statement Note Disclosures*, issued in 2001. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS (FY 2014/2015)

This Financial Highlights section is governmental fund information.

Expenditures were \$21,547,146 more than revenues. Overall revenues were \$36,309,055. Expenditures were \$57,856,201.

Expenditures were less than budgeted by \$9,881,114 or 14.6% primarily due to the partial expenditure of capital projects and roll over funds for future years. Additionally, there were programs that did not expend their full budgeted allocation resulting in savings in overall program expenditures.

Expenditures fall within three categories: Administrative, Program, and Evaluation. Administrative expenditures were \$3,656,183 or 6.3% of the total expenditures (not to be confused with the Administrative Rate, which is calculated on the final Operating Budget); Program expenditures were \$53,010,552 or 91.6%; Evaluation expenditures were \$1,189,466 or 2.1% of the expenses. Total expenditures were \$57,856,201.

The Commission's Administrative Rate is set by policy to be no more than 10% of the Total Operating Budget. For FY 2014/2015 the administrative rate was 5.40% of the budget. This is based on the Total Administrative Expenditures of \$3,656,183 and the final Total Operating Budget of \$67,737,315.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Commission's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements.

Government-Wide Financial Statements

The *government-wide financial statement* is designed to provide readers with a broad overview of the Commission's finances in a manner similar to a private sector's business.

The *Statement of Net Position* presents information showing how the Commission's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. earned but unused vacation leave).

The government-wide financial statements can be found on pages 10 and 11 of this report.

Fund Financial Statements

A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commission, like other local governments, uses fund accounting to ensure compliance with finance-related legal requirements. Fund financial statements report essentially the same functions as those reported in the government-wide financial statements. However, unlike the government-wide financial statements, fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year.

The Commission adopts an annual appropriated budget for its special revenue fund. A budgetary comparison statement (page 31) has been provided for the special revenue fund to demonstrate compliance with this budget.

The fund financial statements can be found on pages 12 and 14 of this report.

Government-Wide Financial Analysis

Net Position

Table I: Net Position

	FY 2014/2015	FY 2013/2014
Total Assets	\$ 94,880,373	\$ 116,029,469
Total Liabilities	15,549,973	15,131,203
Net Position:

Unrestricted	79,330,400	100,898,266
Total Net Position	\$ 79,330,400	\$ 100,898,266

The Commission's total net position decreased by \$21,567,866 or 21.4% from the prior year due to planned expenses being higher than revenues.

Changes in Net Position

Table II: Changes in Net Position

	FY 2014/2015	FY 2013/2014
Program Revenues	\$ 35,868,837	\$ 34,647,262
General Revenues	440,218	583,742
Total Revenues	36,309,055	35,231,004
Administrative Expenses	4,866,369	4,624,665
Program Expenses	53,010,552	57,085,235
Total Expenses	57,876,921	61,709,900
Change in net position	(21,567,866)	(26,478,896)
Net position – Beginning, July 1, 2014	100,898,266	127,377,162
Net position – Ending, June 30, 2015	\$ 79,330,400	\$ 100,898,266

Program Revenues had an increase of \$1,221,575 or 3.5% from the previous year primarily due to higher Prop 10 Tobacco Tax revenue and higher Race to the Top revenue.

General Revenues decreased by \$143,524 or 24.60% from the prior year due to lower yields on investments.

Total expenses decreased \$3,832,979 or 6.2% from the prior year. This was due to a planned decrease in program expenditures.

BUDGETARY HIGHLIGHTS

- The FY 2014/2015 final budget was \$7.7 million lower than the FY 2013/2014 budget.
- The FY 2014/2015 final budget was \$7.9 million lower for program costs than in FY 2013/2014.
- Prop 10 Tobacco Tax revenue had a favorable increase over budget of \$3.2 million or 21.3% due to an increase in Tobacco Tax revenue over the forecast and a smaller match for Quality Preschool Initiative.
- Prop 10 Quality Preschool Initiative reallocation revenue had an unfavorable variance of \$1,974,692 or 14.4% due to lower expenses requiring a lower match.
- Interest revenue had an unfavorable variance of \$509,132 or 53.5% due to a lower return on investments than was budgeted.
- Labor & Benefits had a favorable variance of \$362,359 or 10.7% due to planned reduction in staffing through attrition.
- Services and Supplies had a favorable variance of \$239,838 or 27.8% primarily due to lower expenditures for specialized services contracts. In addition, expenditures for 20 of the 27 budget accounts were lower than budget.

- Contributions to Community Projects (Program Expenses) had a favorable variance of \$9.3 million or 14.9% mainly due to \$7.0 million in funding that was rolled over for future years. There was also \$2.3 million in lower than expected expenditures in overall contracts.
- Expenditures for evaluation had a favorable variance of \$4,304 or .4%.

BEYOND FY 2014/2015

In June 2014, the Commission adopted a new Strategic Plan that will guide the Commission’s community investments for 2015 to 2020. During this period, the Sustainability Fund that allowed the investment in programs well beyond the revenue received will be depleted. By the end of the Strategic Plan 2015 – 2020 the Commission will not have a Sustainability Fund, but will maintain a Management Reserve, and will balance its budget with the revenue received.

From FY 2010-11 through FY 2014-15 the Sustainability Fund was reduced on average by \$20.2 million per year. In an effort to slow the reduction so that the Sustainability Fund would last through the new Strategic Plan period, the Sustainability Fund will be used to supplement revenues by \$13.1 million on average over the 2015 – 2020 period. As a result of this lower contribution to current year revenues, the budget for FY 2015-16 will be 32.5% lower than FY 2014-15. This reduced budget will be stable for a 5 year period at roughly \$41 million per year.

The Commission, through formal action, approved the Financial Spending Plan that obligates funding for the period FY 2015-2020 for the following programs:

Healthy Development Services	\$ 64,250,000
KidSTART Center Funding	5,500,000
Oral Health	9,600,000
Quality Preschool Initiative	70,000,000
Mi Escuelita	3,265,800
Targeted Home Visits	25,000,000
Parent Education and Family Engagement	1,375,000
Maternity Shelter	625,000
Information & Referral	1,500,000
Parent & Public Education	2,575,000
Community Projects	825,000
Total	\$ 184,515,800

It is anticipated that Proposition 10 revenues derived from the sales of tobacco products will decline in future years as the sales of tobacco products decrease. In anticipation of this decline, the Commission has a financial spending plan that projects an annual decrease in program funding over the life of the plan and prevents a drastic reduction at plan’s end. Although the Financial Spending Plan projects nearly a zero balance of the Commission’s sustainability fund (not counting the Management Reserve) at the end of FY 2019/2020, it is estimated the Commission will receive more than \$20 million per year in Proposition 10 revenues thereafter.

The Financial Spending Plan is reviewed annually and revised accordingly as part of the annual budget process. In April 2014, the Commission approved a Financial Spending Plan for the final year of the 2010 - 2015 Strategic Plan. In June 2014 the Commission adopted a new Strategic Plan for 2015 – 2020. A new Financial Spending Plan was developed in FY 2014/2015 to align with the new Strategic Plan. This new plan addressed the issue of decreased Proposition 10 revenues and the reduction of the Sustainability Fund.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The San Diego County Board of Supervisors established the First 5 Commission of San Diego, formerly the San Diego County Children and Families Commission (The Commission) on December 8, 1998 under the provisions of the California Children and Families Act of 1998 (Act). The Commission is discretely presented as a component unit of the County of San Diego, California. The Commission provides leadership for a network of support for all children from the prenatal stage through age five and their families; develops and operates in partnerships with communities and families; and is accountable for improving outcomes in children's health, safety and learning. The Commission is funded through tobacco tax revenue generated as a result of the California approval of the Proposition 10 Act (Prop 10) in November 1998. The Commission is made up of five members: one (1) member of the Board of Supervisors, two (2) members-at-large appointed by the Board of Supervisors, one (1) member is the Director of the Health and Human Services Agency and one (1) member is nominated by the Director of the Health and Human Services Agency from among the County health officer and persons responsible for management of the following County functions: children's services, public health services, social services, behavioral health services, and tobacco and other substance abuse prevention and treatment services.

In August 2009, the Commission adopted a Strategic Plan for 2010 – 2015, and in June 2014 they adopted a new Strategic Plan for 2015 – 2020. These plans focus the Commission's investments toward achieving key results that best promote early childhood development in San Diego County. The Commission's vision is that "All children are healthy, are loved and nurtured, and enter school as active learners." The plans guide the allocation of up to \$184.5 million (page 8) for fiscal years 2015/2016 through 2019/2020 to support four strategic goal areas that strengthen the relationships essential for the healthy development of young children: (1) Health, (2) Learning, (3) Family, and (4) Community. The new plan spends down the fund balance from \$79.4 million at the beginning of FY 2015/2016 to \$8.3 million as a Management Reserve at the end FY 2019/2020.

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The Commission's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Commission's more significant accounting policies are described below.

The government-wide financial statements (i.e. *The Statement of Net Position* and *The Statement of Activities* on pages 10 and 11) are reported using the *economic resources measurement focus* and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Contributions to community projects through local contractors are recognized as expenditures when criteria for contract payments are met by the contractors.

**FIRST 5 COMMISSION OF SAN DIEGO
A PROPOSITION 10 COMMISSION
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Statement of Net Position presents the Commission's financial position in a *net position approach*.

Net Position

GASB Statement No. 63 requires that the difference between assets added to the deferred outflows of resources and liabilities added to the deferred inflows of resources be reported as net position. Net position is classified as net investment in capital assets, restricted, or unrestricted.

Net position that is net investment in capital assets consist of capital assets, net of accumulated depreciation, and reduced by the outstanding principal of related debt. Restricted net position is the portion of net position that has external constraints placed on it by creditors, grantors, contributors, laws, or regulations of other governments, or through constitutional provisions or enabling legislation. Unrestricted net position consists of net position that does not meet the definition of net investment in capital assets or restricted net position.

The Statement of Activities reports the change in net position in a net program cost format to demonstrate the degree to which the expense of the Commission is offset by its program revenues (page 11) in the categories of 1) Health, 2) Learning, 3) Community, and 4) Family.

Governmental fund financial statements, presented after the government-wide financial Statements are reported using the *current financial resources measurement focus* and the *modified accrual* basis of accounting on pages 12 and 14. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Revenues are considered to be *available* when they are collectible within 90 days of the end of the current fiscal period. Revenues susceptible to accrual include tax revenue, grants, and investment income. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable.

C. Budgets, Budgetary Process and Encumbrances

The Commission adopts an annual budget, which can be amended by the Commission throughout the fiscal year. Revenue (not including interest revenue) was budgeted at \$34.7 million per the Financial Spending Plan that was approved in April 2014. The Financial Spending Plan is reviewed annually and, if necessary, is revised to account for updated projections of birth rates, taxable sales of tobacco products and changes in interest rates. Budgeted revenues were established to balance revenues with projected expenditures. Liability for unrealized gains and losses under Governmental Accounting Standards Board's Statement No. 31 (GASB 31) is not included in the budget.

The budget for revenues presented in this audit has been modified from the Approved Budget by the Commission to match the budget amounts to the actual allocation of revenues received. The following table illustrates this re-allocation of budgeted revenues:

**FIRST 5 COMMISSION OF SAN DIEGO

Interest Revenue	952,400	-	952,400
Totals	\$ 35,649,318	-	\$ 35,649,318

D. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual reports could differ from those estimates.

E. Cash and Investments

Investments are valued at fair value. Fair value is defined as the amount that the Commission could reasonably expect to receive for an investment as a current sale between a willing buyer and seller and is generally measured by quoted market prices.

F. New Accounting Pronouncements

Effect of New Governmental Accounting Standards Board (GASB) Pronouncements

GASB Statement No. 68 – In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014.

GASB Statement No. 69 – In January 2013, GASB issued Statement No. 69, *Government Combinations and Disposals of Government Operations*. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. This Statement is effective for periods beginning after December 31, 2013.

GASB Statement No. 71 – In November 2013, GASB issued Statement No. 71, *Pension Transition for Contributions made subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. Aimed to remove the risk of understatement GASB Statement No. 71 will require governments switching to new pension standards to acknowledge the start of deferred outflow of resources for pension contributions made from the measurement date of the beginning net pension liability to the start of the first fiscal year’s implementation. This Statement is effective for periods beginning after June 15, 2014.

G. Reclassifications

Certain accounts have been reclassified to conform to current fiscal year presentation.

H. Management’s Review

Management has evaluated subsequent events through the date the financial statements were available for issuance which is September 2, 2015.

NOTE 2: CASH AND INVESTMENTS BY COUNTY TREASURY

The Commission’s cash and investments at June 30, 2015 are included in the County’s balance sheet as “Cash and Investments in County Treasury”. The Commission has two dedicated portfolios with the County Treasurer’s Office, and a segment of these portfolios are positions in the County Investment Pool. The County Treasurer maintains an investment pool for all funds of the County and other agencies for which the County treasury is the depository. Interest earned on the pooled funds is allocated and credited to these funds quarterly. Interest on investments that are outside the County pool are recognized when earned (i.e. coupon payments on bonds). Interest from the County pool is apportioned to the Commission based on the average daily balances on deposit with the Treasurer of those funds. All cash and investments at June 30, 2015, are stated at fair value.

Cash and Investments in County Treasury consisted of the following at June 30, 2015:

Assets Invested through the County Treasurers Office	
Federal Agency Securities	\$ 25,060,550
County Pool	<u>64,649,202</u>
 Total Cash and Investments by County Treasury	 <u><u>\$ 89,709,752</u></u>

Investments Authorized by the California Government Code

The California Government Code Section 53601 governs the investments of the Commission. The Commission adopted an investment policy on October 4, 2004 but it does not contain policies for exposure to interest rate risk, credit risk and concentration of credit risk. However, under California Government Code Section 53601 the Commission is authorized to make investments in the following:

Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None

California Government Code 53601 provides that the County Board of Supervisors is empowered to authorize the Commission to hold investments with maturities that exceed five years. The Commission has received such an authorization from the San Diego Board of Supervisors on March 22, 2005 to invest for a maximum of 20 years.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. In general, the longer the maturity of an investment, the greater the sensitivity of its fair value to the changes in market interest rates.

Information about the sensitivity of the fair values of the Commission's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the Commission's investments by maturity:

Investment Type	Amount	<u>Remaining Maturity in Months</u>		
		12 months or less	13 to 24 months	25 to 60 Months

NOTE 2: CASH AND INVESTMENTS BY COUNTY TREASURY (continued)

Credit Risk

Generally, credit risk is the risk that the issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code Section 53601 (where applicable) and the actual rating as of year end for each investment type.

Investment Type	Amount	Minimum Rating Required	Credit Quality Rating
<u>First 5 Commission Investments</u>			
Federal Agency Securities	\$ 25,060,550	AAA	AAA
County Pool	<u>64,649,202</u>	VARIOUS	AAAF
Total	<u><u>\$ 89,709,752</u></u>		

Concentration of Credit Risk

The California Government Code Section 53601 places limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total investment are as follows:

Issuer	Investment Type	Amount	% of Total Investments
None for FY 2014/2015			

Custodial Credit Risk

Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that in the event of the failure of the counter party (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code Section 53652 requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure government deposits by pledging first trust deed mortgage notes having a value of 150% of the secure public deposits.

NOTE 2: CASH AND INVESTMENTS BY COUNTY TREASURY (continued)

Investment in San Diego Investment Pool

The Commission is a voluntary participant in the pool regulated by the California Government Code Sections 53601 and 53635, under the oversight of the Treasurer of the County of San Diego. The fair value of the Commission's investment in this pool is reported in the accompanying financial statements at amounts based upon the Commission's pro-rata share of the fair value provided by the County of San Diego for the entire pool portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the pool, which are recorded on a cash basis.

NOTE 3: ACCOUNTS RECEIVABLE

The accounts receivable is recorded at full value and represents the amount of Prop 10 revenue the California Children and Families Commission (First 5 California) owes the Commission for the months of May and June 2015 and miscellaneous Surplus Money Investment Fund (SMIF) revenue.

Prop 10 revenue for:	
May 2015	\$ 2,775,987
June 2015	2,264,473
SMIF	<u>9,395</u>
Total	<u>\$ 5,049,855</u>

NOTE 4: ACCOUNTS PAYABLE

Accounts payable is comprised of \$15,027,131 in funding due to contractors at June 30, 2015.

NOTE 5: DUE TO/DUE FROM COUNTY OF SAN DIEGO

These are funds that are due to or due from the County of San Diego's general fund.

The County of San Diego owes the Commission \$117,700 for County investment interest earnings in the operating fund and the sustainability reserve fund.

The Commission owes the County of San Diego \$215,229 for:

- 1) Program costs of \$114,671;
- 2) Labor costs of \$39,620;
- 3) Computing and IT charges of \$7,385;
- 4) County Counsel services \$613;
- 5) Interest receivable year end and portfolio admin fee \$52,836;

NOTE 6: COMPENSATED ABSENCES

Compensated absences represent the liability for unpaid vacation leave, holidays and other compensated absences with similar characteristics, except sick leave.

NOTE 7: REVENUE

The Commission receives a proportionate share of Proposition 10 money from First 5 California based on the number of live births in the county in comparison to the number of live births statewide. This fund is identified in the County of San Diego's accounting records as the First 5 Commission Operating Fund (Fund Number 49217). The Commission also receives Special Funding, as explained in Note 8, and Surplus Money Investment Fund (SMIF) allocations from First 5 California. The SMIF allocations represent distributions of interest accrued on statewide Proposition 10 money.

Revenue for the fiscal year 2014/2015 is comprised of:

Proposition 10 revenue (monthly allocations)	\$ 18,430,920
SMIF	9,395
Quality Preschool Initiative	11,728,390
The Child Signature Program	3,454,625
Race to the Top	2,245,507
Interest	443,268
Net increase (decrease) in FMV of investments	<u>(3,050)</u>
Total revenue	<u><u>\$ 36,309,055</u></u>

NOTE 8: SPECIAL FUNDING

Special funding for FY 2014/2015 included \$11,728,390 for the First 5 San Diego Quality Preschool Initiative; \$3,454,625 for the First 5 California Child Signature Program; and \$2,245,507 for the California Department of Education Race to the Top program.

Quality Preschool Initiative: The purpose of the First 5 San Diego Quality Preschool Initiative (QPI) is to use a multi-tiered service delivery model to implement high quality preschool programs in high needs areas of San Diego County. The goal of the QPI program is to reduce the school readiness gap and improve school achievement in San Diego County. During the Fiscal Year 2014/2015 the QPI program served more than 13,000 children in quality enhanced preschool classrooms, and provided parent education classes to more than 2,400 caregivers/parents.

The balance sheet and statement of revenue, expenditures and changes in fund balance for this special funding program is presented as supplementary information in this report on pages 34 and 35.

NOTE 8: SPECIAL FUNDING (continued)

Child Signature Program: The primary purposes of the First 5 California Child Signature Program (CSP) are: 1) To enhance the quality of current preschool programs by implementing research based program elements. 2) To increase the quality in early learning programs for children ages 0 to 5 in identified Early Child Education (ECE) centers where the education divide is the greatest. Key goals include: (1) At risk children will enter school with skills to be successful. (2) Optimize teacher effectiveness. (3) Increase children’s access to quality early learning programs. (4) Increase parent knowledge of age appropriate cognitive and behavioral development. The special funding money for this program can only be used for purposes specified under the funding agreement. The balance sheet and statement of revenue, expenditures and changes in fund balance for this special funding program is presented as supplementary information in this report on pages 36 and 37.

Race to the Top: The purpose of the California Department of Education Race to the Top (RTT) grant is to improve early learning and development programs for children 0 to 5. The program goals include: 1) Increase the number and percentage of low-income and disadvantaged children enrolled in high quality early learning programs. 2) Design and implement an integrated system of high quality early learning programs and services. 3) Ensure that the use of assessments conforms with the recommendations of the National Research Council’s reports on early childhood education.

The special funding money for this program can only be used for purposes specified under the funding agreement. The balance sheet and statement of revenue, expenditures and changes in fund balance for this special funding program is presented as supplementary information in this report on pages 38 and 39.

NOTE 9: LEASE OBLIGATION

The Commission is obligated for the next 4 years under a space rental lease which is accounted for as an operating lease. An operating lease does not give rise to property rights and therefore, the results of the lease agreement are reflected in the Commission’s basic financial statements.

The future rental payments required under the operating lease are as follows:

Year ending June 30:		
2016	\$	343,941
2017		353,894
2018		363,847
2019		<u>374,169</u>

NOTE 10: EVALUATION EXPENSES

The Commission spent \$1,189,466 on program evaluation during the audit period.

NOTE 11: FUND BALANCES

As of June 30, 2015, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form (e.g. Prepaid Expense) or because they are legally or contractually required to be maintained intact (e.g. revolving fund or the principal of an endowment).

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the Commission. The Commission is the highest level of decision making authority. These committed amounts cannot be used for any other purpose unless the Commission removes or changes the specific uses through the same type of formal action taken to establish the commitment.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the Commission’s adopted policy, only the Commission or Executive Director may assign amounts for specific purposes.

Unassigned – all other spendable amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the commission considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the Commission considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Commission has provided otherwise in its commitment or assignment actions.

Footnotes

- a. Net of refunds for tax indicia on cigarettes that become unfit for use (See Refunds).
- b. A discount of .85 percent of gross value of tax indicia is granted to distributors for affixing the stamps. From July 1, 1960, until August 1, 1967, the discount rate was 2 percent.
- c. Includes sales of indicia purchased on credit. Effective July 16, 1961, distributors have been able to purchase tax indicia on credit.
- d. From July 1, 2001, through September 9, 2001, the surtax rate on smokeless tobacco ranged from 131 percent for most snuff to 490 percent for chewing tobacco. Effective September 10, 2001, the surtax rate on smokeless tobacco was lowered to 52.65 percent.
- e. Effective January 1, 1999, the overall tax rate on cigarettes was increased from 37 cents to 87 cents per pack under voter-approved Proposition 10. The additional 50-cent-per-pack tax was imposed to raise funds for early childhood development programs. Excludes \$87,978,766 in 1998-99 from the floor stocks taxes for both cigarettes and other tobacco products levied on January 1, 1999.
- f. From July 1, 1998, through December 31, 1998, the surtax rate was 26.17 percent for other tobacco products. Effective January 1, 1999, the new surtax imposed under Proposition 10 raised the combined surtax rate to 61.53 percent for other tobacco products. The new surtax is equivalent (in terms of the wholesale costs of other tobacco products) to a 50-cent-per-pack tax on cigarettes.
- g. Effective January 1, 1994, the overall tax rate on cigarettes was increased from 35 cents to 37 cents per pack. The additional 2-cent-per-pack tax was imposed to raise funds for breast cancer research and education.
- h. Effective January 1, 1989, an additional 25-cent-per-pack surtax was imposed on cigarettes and a new 41.67 percent surtax was imposed on other tobacco products. Excludes \$57,927,856 in 1988-89 and \$595,000 in 1989-90 from the floor stocks tax levied on January 1, 1989.
- i. Effective August 1, 1967, the tax rate was increased from 3 cents to 7 cents per pack. On October 1, 1967, the rate was further increased to 10 cents per pack, with the stipulation that 30 percent of the tax be allocated to cities and counties. Includes \$6,515,209 from the 4-cent-per-pack floor stocks tax levied on August 1, 1967; and \$4,889,485 from the 3-cent-per-pack floor stocks tax imposed October 1, 1967.
- j. Refunds made for distributors' discounts in the 1960-61 fiscal year on purchases made in the 1959-60 fiscal year have been deducted. These refunds amounted to \$324,000.
- k. Effective July 1, 1960, a discount was allowed at the time tax indicia were purchased.
- l. Includes \$2,673,048 from the 3-cent-per-pack floor stocks tax imposed July 1, 1959; and also includes the amount of distributors' discounts which were refunded after purchase of indicia. During July and August of 1959, the tax was collected by invoice and no discount was allowed on these collections of \$8,123,700, nor on the \$2,673,048 tax on floor stocks.

Board of Commissioners
First 5 Commission of San Diego
San Diego, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of First 5 Commission of San Diego, as of and for the year ended June 30 2015, and the related notes to the financial statements, which collectively comprise the First 5 Commission of San Diego's basic financial statements, and have issued our report thereon dated September 2, 2015.

In planning and performing our audit of the financial statements, we considered First 5 Commission of San Diego's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of First 5 Commission of San Diego's internal control. Accordingly, we do not express an opinion on the effectiveness First 5 Commission of San Diego's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether First 5 Commission of San Diego's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Compliance

We have audited the basic financial statements of First 5 Commission of San Diego (the Commission) as of and for the year ended June 30, 2015 and have issued our report thereon dated September 2, 2015. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. We have also audited the Commission's compliance with the requirements specified in the State of California's *Standards and Procedures for Audits of Local Entities Administering the California Children and Families Act*, issued by the State Controller's Office, applicable to the Commission's statutory requirements identified below for the year ended June 30, 2015.

Management's Responsibility

Compliance with the requirements referred to above is the responsibility of the Commission's management.

Auditor's Responsibility

Our responsibility is to express an opinion on First 5 Commission of San Diego's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State of California's *Standards and Procedures for Audits of Local Entities Administering the California Children and Families Act*, issued by the State Controller's Office. Those standards and the State of California's *Standards and Procedures for Audits of Local Entities Administering the California Children and Families Act* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on the statutory requirements listed below occurred. An audit includes examining, on a test basis, evidence about First 5 Commission of San Diego's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of First 5 Commission of San Diego's compliance with those requirements.
