

First 5 Commission of San Diego

January 29, 2018

Strategic Plan 2020-2025 Updates

Commissioner Carol Skiljan

- The planning process of the Commission's Strategic Plan 2020-2025 has begun and First 5 SD staff have identified prospective Ad Hoc Committee members and convening the committee.
- The Ad Hoc Committee's role will be to provide recommendations on the 2020-2025 Strategic Plan development. The former Technical Professional and Advisory Committee, or TPAC, previously held this role and the committee structure was changed in 2015.
- Alethea Arguilez, Executive Director has focused on ensuring a broad representation on the Ad Hoc Committee: including Early Care and Education experts from public health, early childhood mental health, early childhood education, and community stakeholders whose work aligns with the First 5 SD mission of improving the lives of children in San Diego County.
- The first Ad Hoc Committee meeting is currently planned to take place in March.
- Among other activities, an internal planning team, made of First 5 SD leadership staff and MIG held the project initiation meeting in December to discuss priorities, desired outcomes, and greatest needs and gaps that will frame the strategic plan.
- Ongoing updates on the planning process, as well as the Ad Hoc committee's first convening will be provided at the April Commission meeting.
