Such corrective actions shall be in addition to any other remedies the Commission may have under this Agreement or at law or equity.

Where non-cost-reimbursement work (fixed price, labor hour, time and materials, etc.) is also provided for in this Agreement, Contractor shall be entitled to compensation as set forth below:

4.2.1 Contractor shall be entitled to compensation only upon completion and acceptance of a deliverable or portion of work as described in the Payment Schedule ("Services"). In no event, however, shall Contractor's invoiced amounts exceed the maximum Agreement amount or budget.
 - 4.13.2 If the Agreement term, Initial Term, or any Option Period originates in one County Fiscal Year and ends in another County Fiscal Year, Contractor shall not exceed the amounts reasonably allocated to each of the County Fiscal Years based on the monthly budget or other rate of expense.

- 5.2 Commission's Agreement Administrator. The Commission has designated the individual identified on the signature page as the Contracting Officer's Representative ("COR"). The COR will coordinate the Commission's administration of this Agreement.
- 5.2.1 The COR is designated to receive and approve Contractor invoices for payment, audit and inspect records, inspect Contractor services, and provide other technical guidance as required.
- 5.2.2 The COR is not authorized to make Changes to this Agreement, except for administrative adjustments, such as line-item budget changes or adjustments to the service requirements, that do not change the purpose or intent of the Statement of Work, the Terms and Conditions, the Agreement Term, or the total Agreement price ("Administrative Adjustments"). Each Administrative Adjustment shall be in writing and signed by COR and Contractor.

The COR and other Commission personnel, as appropriate, will meet periodically with the Contractor to review the Contract performance with the COR serving as meeting chair. The Contractor shall also notify the Contracting Officer (in writing) of any work being performed that the Contractor considers being over and above the scope of this Contract. Appropriate action shall be taken to resolve outstanding issues. The minutes of these meetings will be reduced to writing and signed by the COR and Contractor. Should the Contractor not concur with the minutes, the Contractor shall set out in writing any area of disagreement within 10 days. Appropriate action will be taken to resolve any areas of disagreement.

CHANGES

- 6.1 Changes. Changes to this Agreement may only be made by Administrative Adjustment, Change Order, or amendment, in accordance with this Article 6. No other modification of this Agreement shall be valid.

Where the cost of property made obsolete or excess as a result of a Change Order is included in the Contractor's claim for equitable adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any equitable adjustment shall be a dispute concerning a question of fact within the meaning of Article 14 "Disputes." However, nothing in this section shall excuse the Contractor from proceeding with this Agreement as changed.

- 6.1.3 Amendment. The Commission and Contractor may modify this Agreement by written amendment signed by the Contracting Officer and Contractor.

- 7.1 In the event of Contractor's breach of this Agreement, Commission shall have the right to terminate this Agreement in whole or in part.

Contractor shall have ten (10) days from issuance (unless a different time is given in the notice) to respond to the notice as directed by Commission to acknowledge the default or show cause as to why Contractor is not in default. - 7.1.3 In the event of termination for default, all finished or unfinished documents, and other materials, prepared by Contractor under this Agreement shall become the sole and exclusive property of Commission.

In such event, Contractor shall, upon request, prepare and deliver to the COR a written mitigation plan. Nothing in this section relieves the Contractor of its obligations under this Agreement.
- 7.4 Reduction in Funding. In the event there is a reduction of funds made available by Commission to Contractor under this or subsequent agreements, the County of San Diego and its departments, officers and employees shall incur no liability to Contractor and shall be held harmless from any and all claims, demands, losses, damages, injuries, or liabilities arising directly or from such action.

11.1.2 Contractor shall fully cooperate with any Audit and Inspection. Commission or County shall perform Audits and Inspections in a manner so as not to unduly interfere with Contractor's performance.

11.1.3 At any time during normal business hours and as often as Commission and County may deem necessary, Contractor shall make available to Commission, County, State or federal officials for examination all of its records with respect to all matters covered by this Agreement and will permit Commission, County, State or federal officials to examine and make excerpts or transcripts from such records, and to make audits of all invoices, materials, payrolls, records of personnel, information regarding clients receiving services, and other data relating to all matters covered by this Agreement.

- 11.4 Outcome-Based Measures. Where outcome-based measures are set forth in the Statement of Work, Contractor shall maintain, and provide to Commission upon Commission's request as often as Commission deems necessary, complete, and accurate data documenting such outcome measures under this Agreement. Such data may include, but is not limited to, statistics on outcomes, rates of success, and completion rate of deliverables.
- 11.5 Full Cost Recovery. Contractor shall reimburse Commission for all direct and indirect expenditures incurred in conducting an audit, investigation, or inspection when Contractor is subsequently found to have violated terms of this Agreement.
- 11.6 Corrective Actions. If any services performed hereunder are found to have not been in conformity with the specifications and requirements of this Agreement, Commission shall have the right to (1) require the Contractor to perform the services in conformity with said specifications and requirements at no additional increase in total Agreement amount, (2) require Contractor to immediately take all necessary steps to ensure future performance of the services in conformity with requirements of the Agreement, (3) reduce payment to Contractor in accordance with Article 4, (4) have the services performed, by agreement or otherwise in conformance with the specifications of this Agreement and recover from Contractor any costs incurred by Commission that are directly related to the performance of such services, and/or (5) pursue any other rights or remedies available to Commission under this Contract.

ARTICLE 12
RECOVERY OF FUNDS

Where Contractor is required to reimburse Commission under any provision of this Agreement, or where Commission is otherwise owed funds from Contractor under this Agreement, Commission may, at its sole discretion and subject to funding source restrictions and State and federal law: (1) withhold such amounts from any amounts due to Contractor pursuant to the payment terms of this Agreement, (2) withhold such amounts from any other amounts due to Contractor from Commission, and/or (3) require Contractor to make payment to Commission for the total amount due (or a lesser amount specified by Commission) within thirty (30) days of request by Commission. Notwithstanding the foregoing, Commission may allow Contractor to repay any such amounts owed in installments pursuant to a written repayment plan.

ARTICLE 13
USE OF DOCUMENTS AND REPORTS

- 13.1 Findings Confidential. Any reports, records, data, or other information given to or prepared or assembled by Contractor under this Agreement that Commission requests to be kept confidential shall not be made available to any individual or organization by the Contractor without the prior written approval of Commission except as may be required by law. Contractor shall not disclose to any individual or organization any reports, records, data, or other information received, prepared, or assembled by Contractor under this Agreement.
- 13.2 Ownership, Publication, Reproduction and Use of Material. All reports, studies, information, data, statistics, forms, designs, plans, procedures, systems, and any other material produced under this Agreement shall be the sole and exclusive property of Commission. No such materials or properties produced under this Agreement shall be subject to private use, copyright or patent right by Contractor in the United States or in any other country without the express written consent of Commission. Commission shall have unrestricted authority to publish, disclose, distribute and otherwise use, copyright or patent, in whole or in part, any such reports, studies, data, statistics, forms or other materials or properties produced under this Agreement.
- 13.3 Confidentiality. Commission and Contractor agree to maintain the confidentiality of and take industry appropriate and legally required measures to prevent the unlawful disclosure of any information that is legally required to be kept confidential. Except as otherwise allowed by local, State or federal law or regulation and pursuant to this section 13.3, Commission and Contractor agree to only disclose confidential records where the holder of the privilege, whether the Commission, the Contractor or a third party, provides written permission authorizing the disclosure.
- 13.4 Public Records Act. The California Public Records Act ("CPRA") requires Commission to disclose "public records" in its actual or constructive possession unless a statutory exemption applies. This generally includes contracts and related documents. If Commission receives a CPRA request for records relating to the Agreement, Commission may, at its sole discretion, either determine its response to the request without notifying Contractor or notify Contractor of the request. If Commission determines its response to the request without notifying Contractor, Contractor shall hold Commission

harmless for such determination. If County notifies Contractor of the request, Contractor may request that Commission withhold or redact records, responsive to the request by submitting to Commission a written request within five (5) business days after receipt of the Commission's notice. Contractor's request must identify specific records to be withheld or redacted and applicable exemptions. Upon timely receipt of Contractor's request, Commission will review the request and at its sole discretion withhold and/or redact the records identified by Contractor. Contractor shall hold Commission harmless for Commission's decision whether to withhold and/or redact pursuant to Contractor's written request. Contractor further agrees that its defense and indemnification obligations set forth in section 10.1 of this Agreement extend to any Claim (as defined in section 10.1) against the Commission Parties (as defined in section 10.1) arising out of Commission's withholding and/or redacting of records pursuant to Contractor's request. Nothing in this section shall preclude Contractor from bringing a "reverse CPRA action" to prevent disclosure of records. Nothing in this section shall prevent the Commission or its agents or any other governmental entity from accessing any records for the purpose of audits or program reviews if that access is legally permissible under the applicable local, State or federal laws or regulations. Similarly, County or its agent or designee may take possession of the record(s) where legally authorized to do so.

- 13.5 Custody of Records. Contractor shall deliver to Commission or its designee, at Commission's request, all documentation and data related to Contractor's work under this Agreement, including but not limited to, Commission data and client files held by Contractor, at no charge to Commission. Commission, at its option, may take custody of Contractor's client records upon Agreement termination, expiration, or at such other time as Commission may deem necessary. Commission agrees that such custody will conform to applicable confidentiality provisions of State and federal law and that retained records shall be available to Contractor for examination and inspection in accordance with applicable law. Contractor shall destroy records not turned over to Commission in accordance with applicable retention requirements and this Agreement. Notwithstanding the foregoing, Contractor may retain one (1) copy of the documentation and data for archival purposes or warranty support, and Contractor may maintain records that it is legally required to maintain.
- 13.6 Reports. Contractor shall submit reports required in Exhibit A and additional reports as may be requested by the COR and agreed to by the Contractor. Format for the content of such reports may be developed by Commission. The timely submission of these reports is a necessary and material provision of this Agreement, and Contractor agrees that failure to meet specified deadlines will be sufficient cause to withhold payment. Contractor shall submit to Commission within thirty (30) days of the termination of this Agreement a report detailing all work done pursuant to this Agreement by Contractor.

Any purported assignment or delegation in violation of this section shall be null and void.
- 16.3 Entire Contract. This Contract, together with all exhibits attached hereto and other agreements expressly referred to herein, constitute the entire Contract between the parties with respect to the subject matter contained herein. - 16.8 Headings. The article and section headings used in this Contract are inserted for convenience only and are not intended to define, limit or affect the construction or interpretation of any term or provision hereof.
- 16.9 Neither Party Considered Drafter. Despite the possibility that one party may have prepared the initial draft of this Contract or played the greater role in preparing subsequent drafts, neither party shall be deemed to be the drafter of this Contract. In construing this Contract, no provision shall be construed in favor of one party on the ground that the provision was drafted by the other party.
- 16.10 No Other Inducement. The making, execution and delivery of this Contract by the parties hereto has not been induced by any representations, statements, warranties or agreements other than those expressed herein.
- 16.11 Notices. - 16.16 Waiver. The waiver by one party of the performance of any term, provision, covenant or condition shall not invalidate this Contract, nor shall it be considered as a waiver by such party of any other term, provision, covenant or condition. Delay by any party in pursuing any remedy or in insisting upon full performance for any breach or failure of any term, provision, covenant or condition shall not prevent such party from later pursuing remedies or insisting upon full performance for the same or any similar breach or failure.
- 16.17 Third Party Beneficiaries Excluded. This Agreement is intended solely for the benefit of the Commission and its Contractor. Any benefit to any third party is incidental and does not confer on any third party to this Agreement any rights whatsoever regarding the performance of this Agreement. Contractor shall take appropriate steps to acknowledge receipt of Complaints(s) from individuals or organizations and to address or resolve all Complaints. Contractor shall promptly notify the Commission of the status and disposition of all complaints and provide additional information or documentation upon request. Nothing in this provision shall be interpreted to preclude Contractor from engaging in any legally authorized use of its facility, property, or business as approved, permitted or licensed by the applicable authority.

Contractor shall document review of criminal background findings and consideration of criminal history in the selection of such persons listed above in this section.

16.21.1 Contractor shall utilize a subsequent arrest notification service or perform a criminal background check annually during the term of this Agreement for any employee, director, officer, agent, subcontractor, consultant or volunteer who will be providing any services under this Agreement. HEALTHY DEVELOPMENT SERVICES (HDS) COUNTYWIDE COORDINATOR
EXHIBIT A – STATEMENT OF WORK

1. Background

The First 5 Commission of San Diego was established by the California Children and Families Act (Proposition 10), passed by California voters in November 1998. This statewide Proposition imposed an additional tax on tobacco products. The revenue generated from the tax is used to fund programs and activities that promote early childhood development from the prenatal stage through age five. The First 5 Commission of San Diego is responsible for implementing the Act in San Diego County/Commission. The First 5 Commission of San Diego leads the San Diego community in promoting the vital importance of the first 5 years of life to the well-being of children, families and society. The Commission's vision is that *all children ages 0 through 5 are healthy, are loved and nurtured, and enter school as active learners*. The Commission seeks to achieve this vision by funding services and activities to achieve desired results, advocating for policy change at local and state levels, acting as a catalyst and leader for coordinating, integrating and leveraging existing resources, and building community and organizational capacity to support families.

Strategic Plan and Desired Results. The Commission's Strategic Plan for 2025-30 sets priorities for how funds will be allocated. The Plan, adopted in June 2014, reflects the growth and progress achieved over five years of funding programs that promote children's development. The Strategic Plan provides the roadmap for creating lasting, positive changes for children in our community.

The desired results outlined in the Commission's Strategic Plan that will be addressed through the Healthy Development Services (HDS) Project are described below:

- Decrease the percentage of children entering kindergarten with undetected and/or untreated developmental, social emotional or behavioral delays or concerns;
- Increase parents' and caregiver's knowledge and capacity to promote the healthy development of children ages 0 through 5;
- Increase parents' and caregivers' access to needed services for their children through care coordination;
- Increase the community's capacity to identify, treat and support the needs of children and pregnant women;
- Increase the percentage of parents and caregivers receiving mental health services as identified.

The Strategic Plan embraces a comprehensive approach to improving children's readiness for school that includes integrated and comprehensive services for children ages 0 through 5.

Live Well San Diego Vision. The County of San Diego, Health and Human Service Agency (HHSA), supports the *Live Well San Diego* vision of Building Better Health, Living Safely, and Thriving. *Live Well San Diego*, developed by the County of San Diego, is a comprehensive, innovative regional vision that combines the efforts of partners inside and outside County government to help all residents be healthy, safe, and thriving. All HHSA partners and contractors, to the extent feasible, are expected to advance this vision. Building Better Health focuses on improving the health of residents and supporting healthy choices. Living Safely seeks to ensure residents are protected from crime and abuse, neighborhoods are safe, and communities are resilient to disasters and emergencies. Thriving focuses on promoting a region in which residents can enjoy the highest quality of life.

Information about *Live Well San Diego* can be found on the County/Commission's website and a website designated to the vision:

A Trauma-Informed System: The County of San Diego Health and Human Services Agency (HHSA) is committed to becoming a Trauma-Informed System as part of its effort to build a better service delivery system. All programs operated and supported by HHSA shall be part of a Trauma-Informed System, which includes providing trauma-informed services and maintaining a trauma-informed workforce. It is an approach for engaging individuals – staff, clients, partners, and the community – and recognizing that trauma and chronic stress influence coping strategies and behavior. Trauma-informed systems and services minimize the risk of re-traumatizing individuals and/or families, and promote safety, self-care, and resiliency.

Trauma-Informed Principles include:

- Understanding trauma and its impact to individuals;

- Promoting safety;
- Awareness of cultural, historical, disability, and gender issues, and ensuring competence and responsiveness;
- Supporting consumer empowerment, control, choice, and independence;
- Sharing power and governance (e.g. including clients and staff at all levels in the development and review of policies and procedures);
- Demonstrating trustworthiness and transparency;
- Integrating services along the continuum of care;
- Believing that establishing safe, authentic, and positive relationships can be healing;
- Understanding that wellness is possible for everyone.

2. Purpose of the Healthy Development Services Project

- 2.1 Early identification of developmental delays is critical to ensuring children enter school ready to learn. Yet, while 17% of children under 18 years have developmental or behavioral disabilities and a greater number have language delays, less than 50% of these children are identified prior to entering school and most are identified after grade 3. By this time, the delay may have become more significant and the optimal time for treatment (the first 5 years of life) has been missed. In January of 2006, the First 5 Commission of San Diego launched HDS to promote children's optimal development and learning by improving access to health, developmental and behavioral services so that problems that can impact children's learning are prevented or identified and addressed as early as possible.

The project consists of one contractor to oversee and coordinate the continued successful implementation of the Healthy Development Services Project Countywide and six Regional Service Network (RSN) Lead Agency contracts.

This Project is built upon several key features that together will create a strong foundation for success and sustainability:

- A focus on the child and family's need that uses system wide screening and assessment tools;
- A focus on providing high quality treatment services that show clear gains and address the child's and family's need;
- A comprehensive approach that addresses not only direct services but also provider capacity building, community strengthening and awareness, and systems change;
- Experienced subcontractors and extensive partnerships with a variety of key stakeholders that will allow the Project to utilize and build upon the existing strengths and resources within the regions and Countywide;
- Integrating with other HDS and First 5 San Diego services;
- Integrating with existing health and education systems to ensure there is a continuum of services so children are optimally ready to succeed in school; and
- Parent education, support and empowerment woven into all activities and services, providing parents with the tools and knowledge they need to promote and monitor their children's development; access the services they and their children need; navigate service systems; and successfully advocate for their children's needs.

Additional Project Supports

The Regional Services Networks are supported by several other Commission-funded activities that will be part of the Healthy Development Services Project, including:

- Countywide Project coordination and support that will facilitate systems development, coordination and learning across the six regional networks and will provide:
 - Capacity building and technical assistance to increase the quality of services for young children.

- 2.2 The overall results sought from the HDS Project are:

- Strong, comprehensive systems of services for children's developmental and behavioral health needs that incorporate and build upon existing networks, resources, and services in each HHSA region;
- Increased coordination and integration among existing systems;
- Expanded and new services that fill service gaps;
- Early identification and treatment of special health, developmental and behavioral needs in children;
- Education and empowerment of parents so that they have the knowledge and skills they need to promote, and advocate for their children's health and development;

- Increased provider capacity to deliver high quality services;
- Increased access to services for children and families of diverse ethnic and cultural backgrounds and children with special needs; and
- Strong measurement and evaluation of impacts and outcomes.

2.3 In addition, this Project supports children's success in preschool and other early childhood education programs by ensuring that problems that affect their learning are caught early and the children receive the services they need for optimal development and learning. Since its creation, HDS has also transformed the system of developmental services for young children in San Diego County/Commission. HDS has developed into a coherent system and platform integrating with all of the Commission's health-related projects, including Targeted Home Visiting Initiative Services: First 5 First Steps, the Oral Health Initiative and the Learn Well Initiative. With its focus on serving children with mild to moderate delays, HDS fills a gap in the continuum of local developmental services that is largely unfunded and unmet by the existing education and special needs systems.

3. Service Area and Target Population

- 3.1 **First 5 Target Population.** The general target population for the Project's services is birth through 5-year-old children who reside in the County/Commission of San Diego. Children are eligible for First 5 funded services until the time they enter kindergarten or reach their sixth birthday, whichever occurs first. Thus, if a child is five years old, and has not yet entered kindergarten, he/she is still eligible for First 5 funded services. Parents, primary caregivers, health care providers, and other relevant service providers are also targeted for outreach, education and support services.
- 3.2 **Targeted High Need Populations.** Developmental delays and disabilities occur in all socio-economic groups and this program's Level 1 services are designed to provide parent support and education as well as early identification of developmental or behavioral issues for all children birth through 5. Because funds are limited and not sufficient to serve all the children in need, all levels of this program will target children with mild to moderate developmental and/or behavioral concerns, living in low-income households where parents have limited resources, and who are particularly vulnerable and at risk for poor outcomes.

It is anticipated that First 5 San Diego funding will not be sufficient to serve all the children in need, even within the above targeted populations. Contractors will be responsible for establishing and monitoring, as a system, criteria for determining which children will be the highest priorities for service within the established targeted populations (i.e. first come, first served; specific disadvantaged populations, etc.).

4. Contractor Requirements

The Contractor shall direct and oversee continued implementation of Healthy Development Services. The Contractor shall provide oversight, coordination and support to the Project and work closely with Commission staff. The Contractor's activities will be focused on, but not limited to:

Each of the RSNs will have a Lead Agency that will be responsible for coordinating and overseeing a group of subcontractor providers that will provide the services described in a Regional Services Network Statement of Work. The Lead Agency will work with the subcontractors and other partners to coordinate and strengthen service systems in their region that target children ages birth through 5 and their families.

5 Evaluation

The Commission is accountable for effective use of Proposition 10 funds to ensure that all children are healthy, are loved, nurtured, and enter school as active learners. The Commission is required by State law and County/Commission Ordinance to perform outcomes-based evaluation on its funded programs and activities and to publicly report on the results achieved. The Commission's evaluation efforts measure results, promote continuous program improvement, inform and support policy development and planning, and educate the community about the status of young children. The Commission's Strategic Plan contains its focused areas of investment, the objectives to be achieved, core indicators and targets for the period of 2025-26

The performance of the Contractor for Countywide coordination and support will be measured against the implementation plan and activities schedule negotiated with the Commission. Commission staff will oversee the system and methods for measuring and reporting the outputs and outcomes of this Project, and to assess the effectiveness of the Contractor in its role of program coordination and support.

First 5 San Diego: HEALTHY DEVELOPMENT SERVICES (HDS) COUNTYWIDE COORDINATOR

Evaluation Framework

July 1 to June 30

Project Overview and Goals

Early identification of developmental delays is critical to ensuring children enter school ready to learn. Yet, while 17% of children under 18 years have developmental or behavioral disabilities and a greater number have language delays, less than 50% of these children are identified prior to entering school and most are identified after grade 3. By this time, the delay may have become more significant and the optimal time for treatment (the first 5 years of life) has been missed. In January of 2006, the First 5 Commission of San Diego launched the Healthy Development Services Project (HDS) to promote children's optimal development and learning by improving access to health, developmental and behavioral services so that problems that can impact children's learning are prevented or identified and addressed as early as possible.

The project consists of one contractor to oversee and coordinate the continued successful implementation of the Healthy Development Services Project countywide and six Regional Service Network (RSN) Lead Agency contracts.

This Project is built upon several key features that together will create a strong foundation for success and sustainability:

- A focus on the child and family's need that uses system wide screening and assessment tools;
- A focus on providing high quality treatment services that show clear gains and address the child's and family's need;
- A comprehensive approach that addresses not only direct services but also provider capacity building, community strengthening and awareness, and systems change;
- Experienced subcontractors and extensive partnerships with a variety of key stakeholders that will allow the Project to utilize and build upon the existing strengths and resources within the regions and countywide;
- Integration with other First 5 San Diego services;
- Integration with existing health and education systems to ensure there is a continuum of services, so children are optimally ready to succeed in school;
- Parent education, support and empowerment woven into all activities and services, providing parents with the tools and knowledge they need to promote and monitor their children's development; access the services they and their children need; navigate service systems; and successfully advocate for their children's needs.

The Regional Services Networks are supported by several other Commission-funded activities that will be part of the Healthy Development Services Project, but funded separately, including:

- Countywide Project coordination and support that will facilitate systems development, coordination and learning across the six regional networks.

Evaluation Overview

Evaluation activities examine HDS at three levels:

1. **Process:** To confirm and track service numbers within each service category in order to demonstrate who is being served and how
2. **Outcomes:** To assess the impact of services on children 0 through 5 and their families
3. **System:** To determine the extent and success of systems integration, improvement and community change as a result of the initiative

7. Failure to Obtain or Maintain Insurance; County's Remedies

The foregoing insurance requirements as to the types and limits of insurance coverage to be maintained by Contractor, and any approval of said insurance by the County are not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification.

9. Review of Coverage

County retains the right at any time to review the coverage, form and amount of insurance required herein and may require Contractor to obtain insurance reasonably sufficient in coverage, form and amount to provide adequate protection against the kind and extent of risk which exists at the time a change in insurance is required.

10. Self-Insurance

Contractor may, with the prior written consent of County Risk Management, fulfill some or all of the insurance requirements contained in this Contract under a plan of self-insurance. Contractor shall only be permitted to utilize such self-insurance if in the opinion of County Risk Management, Contractor's (i) net worth, and (ii) reserves for payment of claims of liability against Contractor, are sufficient to adequately compensate for the lack of other insurance coverage required by this Contract. Contractor's utilization of self-insurance shall not in any way limit liabilities assumed by Contractor under the Contract.

11. Claims Made Coverage

If coverage is written on a "claims made" basis, the Certificate of Insurance shall clearly so state. In addition to the coverage requirements specified above, such policy shall provide that:

- A. The policy retroactive date coincides with or precedes Contractor's commencement of work under the Contract (including subsequent policies purchased as renewals or replacements).

- C. If insurance is terminated for any reason, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of work.
- D. The policy allows for reporting of circumstances or incidents that might give rise to future claims.

12. Subcontractors' Insurance

Contractor shall require and verify that all subcontractors maintain insurance meeting all requirements stated herein, and Contractor shall ensure that Entity is an additional insured on insurance required from subcontractors. For CGL coverage, subcontractors shall provide coverage with a form at least as broad as CG 20 38 04 13. 13. Waiver of Subrogation

Contractor hereby grants to County a waiver of their rights of subrogation which any insurer of Contractor may acquire against County by virtue of the payment of any loss. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.
